Notes

Spooky Slick's prompt from day 2 - Vampire Bites; yeah, I wasn't creative with the title lol
In any case, hope y'all enjoy!

Will shouldn't have gone there. He shouldn't have stayed in that strange house, enchanted by the charms of its owner. He shouldn't have agreed to have dinner with him. He shouldn't have drank so much wine. But he did, and now, he was in danger.

Will was trembling. Hannibal, the vampire - a fact which Will discovered too late-, was above him on the red velvet couch, between his legs, his deadly cold hands both holding the omega's waist and touching his neck. Will could feel Hannibal's cold breath on his throat. He was inhaling his scent.

Then, Will felt the vampire chuckling, low, against his sensitive skin.

"I wasn't expecting to feast on omega's blood tonight. I'm glad you came to me, my dear." Will shivered and felt Hannibal's grip on his waist getting firmer.

"Please", the omega gasped. "Don't kill me", he murmured, fearing for his life.

"You're lovely", the vampire ran his sharp glass-like nails through Will's face, delicately. "I won't kill you."

Will's heartbeats were increasing more and more.

"However, I'm starving. And how could I deny such a sweet omega like you?", Hannibal smiled, showing his fangs. Will's tears started to fall.

Without wasting time, the vampire put one arm around Will's waist, bringing him closer, and with the other hand, he lifted the omega's chin, exposing his neck in a better way. Will felt goosebumps when Hannibal breathed in on his neck again. Then, he touched the warm skin with his lips that felt like ice, and gave him some kisses; Will shivered with each one.

Finally, Hannibal parted his lips, his fangs ready to pierce the skin, and he bit. Will instantly clung to the vampire's back, tightening his grip as the fangs went deeper in his throat. He couldn't help but moan, the pain taking over his body like fire, burning inside and outside. After the pain, he could feel his blood flowing right into Hannibal's mouth; he sucked, and Will could hear him swallowing his life.

The omega was feeling weaker and weaker, and his hands fell from the vampire's back. It wasn't painful anymore, and he felt, somehow, a little bit of pleasure. Hannibal must've noticed, he smirked while drinking Will's blood.

Suddenly, Will became paralyzed. Not due to the vampire's act, but because he realized he was leaking. He was able to sense how his underwear was wet with slick, and, despite the fact that Hannibal was sucking his blood, he blushed. Soon, Hannibal finished, blood dripping from his mouth to his chin, and he licked his lips.

"Absolutely delicious, as I thought it would be", he said and quickly noticed Will's flushed cheeks. The vampire frowned, confused for a while, then his expression changed. "Look what we have here", he purred, looking down to the omega's crotch.

Will wanted to bury his face from embarrassment, he couldn't believe he got aroused by having his blood sucked almost to the point of fainting.

"I'll take care of you", Hannibal said, malicious.

Will wanted to tell him to stop. Nothing came out.
